FOR IMMEDIATE RELEASE

November 19, 2025

Curbside Recycling Update

The City of Poquoson, through the Virginia Peninsula Public Service Authority (VPPSA), has entered into a multi-year contract with Republic Services starting **December 1, 2025**. November will be the last month of the current emergency contract with TFC utilizing the brown lid carts, with the last blue recycling pickup scheduled for Friday, 11/21/25 and last red recycling pickup scheduled for Saturday, 11/29/25.

Republic Services will continue with the existing recycling schedule as noted on the City's solid waste calendar, with no service interruptions.

Through a contractor, Republic Services will deliver new **blue** 95-gallon recycling carts to homes in the City's solid waste program Saturday, 11/29/25 through Thursday, 12/4/25.

Residents should immediately use the blue Republic carts after their last November pickup date. Any recycling collected in the old brown lid TFC carts must be transferred to the new blue carts.

The City is communicating with TFC on the removal of the brown lid recycling carts. The carts will either be collected by TFC on your last November recycling day, or they could be collected at a later date by a contractor hired by the City.

Please do not dispose of the brown lid carts and please leave them where they are accessible to be picked up.

For questions or concerns, please contact the Public Works Department at 757-868-3598.
